HE WAS SICK BUT A SHORT TIME.

Me Was Stricken with Paralysis of the Brain-Sketch of His Life-Was a Lite-Long Resident of Richmond.

Dr. Charles H. Chalkley, one of Richmond's most prominent physicians and an eminent toxicologist, died at 9:30 o'clock nday night, at the Retreat for the

His death was rather sudden and was a great shock to his many friends, the majority of whom did not even know that he was sick. The cause of his demise was acute inflammation of the brain, and though the disease did not develop until about a week ago, it made rapid inroads on his constitution. He was paralyzed from his waist down, and all that medical skill could do for him

The deceased was removed to the Re treat last Saturday night week, and it was then for the first time ascertained that he was a very ill man. He lost con iousness and remained totally oblivious of his surroundings until the end, which

Early in life Dr. Chalkley evinced a fondness for chemistry, and devoted a great part of his time to its study. Soon great part of his time to its study. Soon after he became a physician he was appointed adjunct professor of chemistry at the Medical College of Virginia, and held this position until the University College of Medicine was established, when he accepted the Chair of Chemistry and also became Professor of Medical Jurisprudence and Toxicology, which he held up to the time of his death. He also held the professorship of chemistry at the Mechanics Institute.

His life had been a busy one and few men of his years had their opinion on the branches of medicine that received careful study at his hands more highly valued than he. He was held in high regard by brother physicians both as a man and doctor. In his death the institutions with which he was connected suffer an almost Irreparable loss. irreparable loss. MARRIED MISS HARRISON.

Dr. Chalkley married Miss Harrison aughter of Dr. Edmund Harrison, presi daughter of Dr. Edmund Harrison, president of a woman's college, in Hopkinsville, Ky., and it was while a student at Richmond College that he met her, her father having been at that time connected with that institution in the capacity of Professor of Latin. IN THE COURT OF JOHN. A Couple Married There Yesterday

Well might Justice Crutchfield exclaim 'Variety is the spice of life." He deals with all classes of humanity, all classes of crimes, and has many ridiculouslyfunny things to happen in his court.

The feature of yesterday's proceedings

George said he could not marry the girl as he was under age, but his father interrupted the proceedings by stating that he would fix that by getting the license. THE WASHING AT COBB'S ISLAND.

Cobb's Island, the condition of the place is learned. These gentlemen left the island on Wednesday last, and have just passed through the city. The recent heavy tides on the coast have cut away the island very seriously. Half of the Life-Saving Station had been undermined, and preparations were being made to move it inland. The kitchen of the station had been moved some time before. The high water for several days was up to the hotel, and the Norfolk Cottage, which was occupied by this party, could be entered only on low water. These gentlemen represented that during that time they kept their baggage propped up on chairs. The situation there, to say the least, is serious.

Many Went to the Seashore.
Sunday morning's excursion over the Chesspeake and Ohlo to Old Point consisted of five coaches, and returning, two more coaches were put on to accommodate excursionists who had come from Clifton Forge, Charlottesville, and other points to Richmond, and then made the trip to Old Point, Newport News, and Norfolk. The weather at the seaside was delightful, and a number of people went into the surf. Next Sunday (September 20th) the usual excursion will leave Broad-Street-Station at \$130 A. M.

Long years ago, Dr. Greene, of 35 West 14th St., New York City, studying this deep problem, discovered its prime cause and at once set

about its correction. He found the seat of health to be strength and vigor of
